

An Evening of Ocular Emergencies in Equines And Equine Parasite Control

MONDAY 25TH MARCH
AT LYNDHURST COMMUNITY
CENTRE - DOORS OPEN 7PM

Seadown Ophthalmology Referrals is proud to enjoy an outstanding reputation as a referral practice; and Seadown Equine will be offering all equine owners and vets, the chance to attend a special evening on 'Ocular Emergencies' in horses.

The talk will be given by Seadown's Denise Moore MA VetMB CertVOphthal MRCVSN who has extensive experience in ophthalmology and will be sharing her knowledge, advice, tips and of course, answering your questions.

Our Equine vet Francesca Nossell (Chessie) will also be giving an update on parasites and worming control in equines.

This year the global guidelines regarding the best way to manage parasites in horses, and protect the anthelmintics available to us, have been updated.

Unfortunately, moxidectin resistance in equine parasites is now here, so it is more important than ever to consider how we are managing parasites.

This special evening aims to address all your questions; and will also provide more detail on how our Horse Health Programme can deliver additional value to you as a client.

Calling all equine owners and equine vets. Please do join us and bring along family and friends.

Tickets are £3 each, and proceeds will go towards the charity *Vets with Horsepower*.

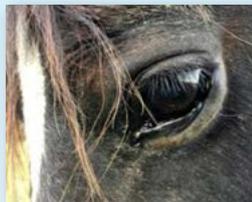

You'll also be able to enjoy our Seadown Raffle and buffet.

Please book tickets by phoning the practice on 023 8084 5586 or by emailing equine@seadownvets.co.uk

Below are some of our patient heroes who made the papers with their ophthalmology issues and surgery
