

# CONSULTATIONS AND HOME VISITS

SEADOWN  
VETERINARY SERVICES

We offer routine consultations by appointment at our surgeries in Hythe, Totton and Lymington throughout the day, Monday to Friday.

Routine appointments are available Mon-Fri and are now 15 mins and 30 mins for initial appointments for referrals. Hythe has appointments until 8pm three evenings a week, whilst routine appointments are available on Saturdays (all day at Hythe, Totton and Lymington mornings only).

In consultations we will typically see a range of animals including dogs, cats, rabbits, 'small furrries' and exotics. If your animal is unwell it is advisable to make an appointment with a veterinary surgeon.

You should discuss your concerns with the vet and your pet will be given a full examination. Vaccinations, blood tests, dressing changes, post-operative checks and the removal of stitches are all carried out in appointments by our fully qualified vets and nurses.

We are also able to make home visits by prior arrangement, if it is difficult to bring your pet into the surgery. However if your animal is seriously unwell or is likely to require further investigation, it is usually more appropriate to bring him or her to one of our branches or the main hospital.

Delivering first-class veterinary care to the New Forest since 1923
